Mastering your intuition with Sat Nam Rasayan

Intuition gives you a solution to every problem. This is helpful with clients, in teaching yoga, making business decisions, or in your private life. Intuition is a natural human ability which we have unfortunately lost. It is very important and not easy to distinguish intuition from other internal sources of information, like an inner voice, your subconscious, the memory or your mind. In Sat Nam Rasayan we use the inner silence to heal ourselves and others. In the treatment you make spontaneous and intuitive moves of consciousness that directly have an effect on your patient.

Beginners should come on Saturday. Sunday is reserved for those who took Sat Nam Rasayan classes before, or on Saturday. This course does not require any prior experience.

No patients.

Bring your mats and blankets; the floor is made of wood!

On Sunday we offer complimentary early morning yoga & meditation (sadhana).
